---

Good Afternoon Ms. LeGrett,

This email is in response to your FOIA request relating to:

A table of projected revenue for the project, I understand the TIF structure would only be in place once an intermodal development area is created and a TIF approved, but the only numbers I have available were preliminary from June. The 40% contribution to the TIF is obviously much more beneficial than I have to the village.

Response: The record responsive to your FOIA request is attached.

Thank you,

Julie Friebele  
Village Clerk

**Subject:** NorthPoint development proposal question

Good morning,

I was wondering if you had available a table of projected revenue for the project. I understand the TIF structure would only be in place once an intermodal development area is created and a TIF approved, but the only numbers I have available were preliminary from June. The 40% contribution to the TIF is obviously much more beneficial than I have to the village.

Thank you.

Delilah Legrett
